

Level 2 Certificate In Warehousing & Storage VRQ (QCF)

Objective

The qualification is aimed at any individuals working in a Warehousing environment. It is an accreditation of the competence, skills and knowledge measured against National Occupational Standards.

The awarding body is **EAL (Excellence, Achievement & Learning Limited)**

The WAS NVQ L2 is made up of 2 mandatory units and 6 optional from a possible 15 job specific units:

- **Unit 001:** Maintain Health & Safety and Security in logistics operations
- **Unit 002:** Develop effective working relationships with colleagues in logistics operations
- Six job specific units chosen around job specific duties
- We can also build into the NVQ any client specific units of assessment requirements.

Our Approach

The Assessor will work with groups of learners or on a one-to-one basis to complete the qualification. The Assessor will be responsible for assessing, supporting and mentoring the learners. We ensure that the Assessor has a manageable caseload of work at any one time.

Delivery Schedule

The learner will follow the following delivery schedule:

Initial induction (include enrolment) – approximately 4 hours off the job

Work based assessments- typically 10-12 hours of individual assessment in total

There is minimum disruption during this activity

Upon successful completion of this activity we can apply for certificates for the learners

Quality Assurance

To ensure the quality of delivery the Internal Quality Assurer will visit the Assessor during the process and also sample learner files upon completion. The External Quality Assurer may also on behalf of the Awarding Body (EAL).

Benefits Of The NVQ

NVQs can enhance job opportunities, increase the feeling of self worth and give you a nationally recognized certificate of competence in the area of your work.
