

TAQA-Internal Verifier Award

Objective

The Internal Verifier programme is designed to offer potential Verifiers the qualifications to allow them to quality assure assessments and the assessment process within delivery of NVQs (QCF).

The Programme

The qualification is made up of 3 units:

- Understanding quality assurance of assessment processes and practice.
- Quality assurance of assessment processes and practice.
- Leading quality assurance of assessment processes and practice.

There are 2 options: The Award which requires the candidate Verifier to achieve units 1 and 2 **or** 1 and 3 and the Certificate which requires **all three** units to be achieved.

Our Approach

The candidate Verifier will be given two assessors to verify who will be assessing NVQs (QCF). The Verifier candidate will be assigned their own assessor and internal verifier. All verifier activity will be carried out within an assessment centre environment. All knowledge requirements will be assessed using written answers to underpinning knowledge questions.

Delivery schedule

The timescales required will be dependent on access to assessors and the availability of the candidate Verifier to carry out internal verification.

Who's involved in the NVQ process?

TACS Ltd - The Training Company
Rick Nicholson – The Internal Verifier

Albert Jolly - Your Trainer / Assessor
EAL (Awarding Organisation) – External Verifier
